

Professional Summary

Development-focused Digital Transformation Specialist with experience applying digital platforms, data, and research to support initiatives across finance, health, education, and governance. Committed to delivering practical, impact-driven solutions that align with development priorities and the Sustainable Development Goals (SDGs).

Core Competencies

- | | |
|--|-------------------------------------|
| • Digital Transformation for Development | • Research & Data Analysis |
| • Software Development | • Project Coordination & Leadership |
| • SDG Alignment & Monitoring | • Agile & Technical Documentation |

Professional Experience

Namibia University of Science and Technology (NUST)

Junior Computer Science Lecturer – Windhoek, Namibia (January 2026 – Present)

- Deliver undergraduate teaching in Computer Science and Informatics, supervise and mentor students, and contribute to curriculum development. Conduct PhD research while supporting publications, conferences, and departmental academic activities.

Achievements:

- Mentored 100+ IT students, boosting research project completion rates by 60% and strengthening digital competencies

Coalition of Manitoba Cultural Communities for Families (CMCCF)

Remote UI/UX Designer and Researcher – Manitoba, Winnipeg, Canada (January 2025 – December 2025)

- Develop and maintain CMCCF's website to ensure accessibility and usability, conduct audits to improve navigation and mobile responsiveness, and manage content updates for events, resources, and community news

Achievements:

- Enhanced and maintained an accessible, user-friendly website that improved navigation and mobile responsiveness, resulting in a more engaging and inclusive platform and increasing overall engagement by 40% across 20+ minority cultural communities in Canada.

The African Development Bank

Remote Software Developer Intern – Abidjan, Cote d'Ivoire (August 2023 – January 2024)

- Designed and tested AI-powered CV ranking and employment-matching systems, deployed CI/CD pipelines to improve development efficiency.

Achievements:

- Integrated secure coding practices, aligning with the High 5's, SDGs and supporting inclusive economic opportunities across Africa.

World Vision International

Data Processing Specialist – Lilongwe, Malawi (July 2021 – January 2022)

- Processed and analysed malaria eradication data from over 50,000 surveys, built reliable data pipelines, and produced actionable insights for decision-makers.

Achievements:

- Developed reliable data pipelines and actionable dashboards that accelerated field-level decision-making, contributing to improved health outcomes by 85% and informing sustainable health policies across Southern Malawi.

Standard Bank Malawi

Digital Banking Consultant – Lilongwe, Malawi (May 2019 – May 2020)

- Enhanced digital banking adoption through targeted training and client support, optimised risk assessments and KYC compliance processes, and drove customer engagement.

Achievements:

- Surpassed account enrolment targets and increased customer satisfaction with digital services by 75% by optimising KYC and risk assessment processes, improving operational efficiency across multiple branches.

Difference Construction Malawi

ICT Support Officer (Part Time) – Lilongwe, Malawi (Jan 2014 – Jan 2018)

- Maintained IT systems through regular updates and backups, strengthened information security with vulnerability assessments.

Achievements:

- Trained over 50 staff on IT systems and security protocols, delivering practical user training that reduced downtime by 40% and strengthened technology adoption and operational continuity.

Awards and Honours

AI for Climate Resilience Research Fellow

Africa Research and Impact Network (ARIN) – (Feb 2026 - Present)

- Contributing to AI-driven climate risk analysis and decision-support research across African contexts, engaging in structured mentorship and collaborative research while working within ethical governance and accountability frameworks for responsible AI innovation.

Volunteering Experience

PrepMe

Part-Time Remote Cambridge IGCSE ICT Tutor – (August 2025 - Present)

- Tutoring secondary school students in Cambridge IGCSE English (reading, writing, and speaking) and Cambridge IGCSE Information Technology, supporting exam preparation and academic skill development.

APO (African Press Organisation)

Part-Time Remote Website Developer and Designer (March 2026 - Present)

- Redesigning and maintaining the organisational website for The Symposium of Episcopal Conferences of Africa and Madagascar (SECAM) and landing pages by enhancing usability, accessibility, performance, and visual consistency, while implementing technical SEO and structured documentation.

United Nations Volunteers (UNV)

Global Centre for Risk and Innovation (GCRI) - Remote Data Researcher – Toronto, Canada (January 2025 – March 2025)

- Led and coordinated a cross-functional research team to develop AI-powered climate resilience models to support sustainable solutions to predict future climate change patterns.

United Nations Educational, Scientific, and Cultural Organisation (UNESCO) Chair

Digital Technologies Researcher – Windhoek, Namibia (March 2022 – October 2024)

- Led the development and deployment of a mobile app to address cyberviolence, organised workshops on digital safety and internet security, and provided research insights to policymakers and NGOs.

Education and Certifications

Namibia University of Science and Technology (NUST) – (Present)

- PhD Candidate, Computer Science
- Research: Developing Digital Frameworks for Internet Security in Sub-Saharan Africa.
- Planned International Exchange Program with Universidad Carlos III de Madrid

Namibia University of Science and Technology (NUST)

Oct 2024

- Master of Science, Informatics by Research
- Thesis: Developing a Mobile Application to Spread Awareness of Social Media Cyberviolence.

The University of Greenwich

July 2019

- Bachelor of Science, Business Information Technology

National College of Information Technology (NACIT)

July 2017

- NCC Education Advanced Diploma in Computing
- NCC Education Diploma in Computing

Professional Certifications
